

EMDR refresher training with group supervision

Manchester

11th March 2011

Course No. T1010

Course presented by

Dr Michael C Paterson OBE

EMDR Institute Trainer

Accredited Trainer with EMDR Europe Association

EMDR Refresher with Group Supervision

Course No. T1010

EMDR is a psychotherapeutic approach that has risen in popularity since its discovery by Dr Francine Shapiro in the 1980s. From the initial publications in the scientific literature EMDR has been recognised throughout the world as an effective treatment for Post Traumatic Stress Disorder. The Northern Ireland DHSS & PS subgroup, CREST, gave it its backing in 2003, followed by the UK National Institute for Clinical Excellence (NICE) in 2005. The approach has also found success in working with different forms of anxiety, panic attacks, and pain.

This course is for clinicians who have already attended an EMDR training and wish to refresh their learning and practice under supervision. It would also be of benefit to those wishing to work towards European accreditation as an EMDR Practitioner. Accreditation is awarded through assessment of competence based on what is covered on the course.

The course will cover:

- The Adaptive Information Processing Model
- Procedural Steps Outline
- Bilateral stimulation mechanics
- Targeting strategies
- Demonstrations
- Practical experience under supervision

Eligibility

Mental health professionals (e.g. clinical psychologists, psychiatrists, CPNs, UKCP accredited psychotherapists, or IACT, BABCP, BACP accredited counsellors) who have previously taken a recognised EMDR course at least at Level 1.

The Trainer

The course will be presented by Dr Michael Paterson OBE, a local clinical psychologist who specialises in treating trauma in emergency services, dissociative disorders and also people suffering chronic pain. He was specially selected to be a Trainer with the EMDR Institute and has been personally trained to the highest standard by Dr Francine Shapiro, the founder of EMDR.
